

THE METAL INDUSTRY

WITH WHICH ARE INCORPORATED
THE ALUMINUM WORLD; COPPER AND BRASS; THE BRASS FOUNDER AND FINISHER;
ELECTRO-PLATERS REVIEW.

Index of Volume 15

JANUARY—DECEMBER, 1917

THE METAL INDUSTRY PUBLISHING COMPANY, 99 John Street, New York

INDEX OF VOLUME 15

ARTICLES MARKED (*) ARE ILLUSTRATED.

ARTICLES

A	Page.
Alkaline Substitute for the Copper Cyanide Solution, Development of an.....	256, 361
*Alloys of Manganese and Copper.....	518
*Alloys, Studies of Non-ferrous.....	304
Aluminum Bronze, Rapid Cooling of.....	73
Aluminum Castings and Forgings.....	65
*Aluminum-Copper.....	340
Aluminum Industry in 1916, The.....	11
Aluminum, Recent Industrial Uses of.....	438
*Aluminum Rolling Mill Practice.....	4, 109
Aluminum Ware, Care of.....	428
*American Electro-Platers' Convention.....	237, 285
*Antimony Plating from the Fluoride Bath and the Testing of Other Antimony Baths.....	197
B	Page.
Barrel Plating.....	338
Brass or Bronze and Babbitt, The Analyses of.....	520
Bearings in Sand and Metal Moulds, Casting.....	485, 516
*Boronized Metals: Some Minute Aspects.....	115
Brass Ashes, The Reclamation of.....	74
*Brass Chemist, The.....	165, 346, 380
Brass Castings, Lacquering.....	432
*Brass Condenser Tubes, Interior Surface Defects on as a Cause of Corrosion.....	291
Brass Die Castings.....	306
*Brass-etto of the Borghetto, The.....	19
Brass Foundry Core-Making Points.....	436
*Brass Foundry Practice.....	515
Brass Foundry, The.....	195, 388
*Brass Goods, How to Obtain the Accurate Cost in Manufacturing.....	10
*Brass, Light Versus Reductions in Cold Working.....	290
Brass Manufacturing Plant, Consideration of Good Shop Practice.....	124
*Brass Mill, A Connecticut.....	331
Brass Rolling Mill Alloys.....	479
Britannia Ware, Re-finishing.....	392
Bronze for Dies, Case-Hardening.....	3
Bronze, Navy, Stone's.....	342, 469
*Bronze Powder, The Manufacture of.....	77, 161, 200, 298
Bronzes in Railroad Turntables and Movable Bridges, The Use of.....	439
C	Page.
Cadmium in Brass, Determination of.....	512
*Chemist and the Brass Founder, The.....	24
Cobalt Plating.....	20
Competition, Incompetent.....	468
*Copper and Phosphorus, Alloys of.....	386
Copper Thin, Rolling.....	111
Core Sand, Negative Experiments on Waste.....	488, 531
Cost Finding.....	112
Cost Practice, Western vs. Eastern.....	16
*Cupro Nickel: Its Micro-Structure.....	72
Crucible Situation, The.....	431
Cyanide Shortage, Solving the.....	12
D	Page.
Deposit, Determining Weight of.....	117
*Design Value of Decorative Motifs.....	15, 390, 513
Die Castings.....	252
Die Castings, The Swelling of Zinc Base.....	470
E	Page.
*Electro-Analysis Apparatus, An Improved.....	463
Electro-Deposits and Government Marks of Karat Alloys, Shall We Have Commercial Standards of.....	17
Electro-Plating Generators.....	294
Employers Keep Their Men, How.....	336
*Engraving and Embossing, The Art of.....	119
Etching Agents.....	530
F	Page.
*Finish, Bronze, The Army or Military.....	467
Finishing, Metal Losses in.....	208
Finish Smoke on Brass or Bronze.....	209
Flatware, Silver-Plated, Re-finishing.....	152
*Foundrymen's Convention, The.....	373, 417
G	Page.
*Galvanizing, Surface Combustion Applied to.....	156
M	Page.
Melting Conditions, Bad.....	337
Manufacturing Expense.....	511
*Metal Aids for the Wounded.....	344
Metal, Anti-Friction.....	153
Metal Carried by Soldiers.....	439
*Metal Conservation.....	433
Metal, Extruded.....	435
Metal Industry in Germany.....	471
*Metal Machine Shop Practice.....	378

	Page.
*Metal Manufactures, Chinese.....	191, 477, 523
Metal Manufactures, Rising Costs in.....	7
*Metal Melting as Practiced at the Royal Mint, Birmingham, England	348, 382
Metal Melting in Gas Furnaces.....	23
*Metal Scrap Briquetting of Non-Ferrous Light	526
Metals and Alloys, Properties of.....	164
*Metals, Canada's Progress in.....	105
*Metals Committee, Five Members of the Government	210
*Metal-Worker Goes Off to War, When Friend	472
*Metal Working, Results of Investigations in Monel Metal for Tags.....	290
*Munitions of War	339

N

Nickel.....	26
Nickel Adventures, Some Rapid.....	8
Nickel-Plating Aluminum.....	14
Nickel-Plating Salts, Which? Single or Double.....	389
Nickel Strip.....	519
Nitre Cake for Pickling.....	487

O

*Ohmic Resistance of Plating Solutions, Measuring the.....	253
Oxidizing Bronze, A Formula for.....	473

P

Patent Points, With Some Applications to Alloy Patents, A Few.....	474
Pewter, Cleaning Old.....	342
Plater's Recollection, A.....	67, 259, 343
Plating, Electrical Loss in.....	18
*Plating, Mechanical.....	61
Platinum Shortage, and What It Means to Platinum Users, The.....	204
*Polishing and Plating Steel Automobile Lamp Reflectors, A Modern Development in Polishing Department, Equipping a.....	149

R

Rack Insulation.....	194
Reclamation Plant, The Installation and Operation of a Small.....	429
*Rolling Mill, The Development of a.....	244

S

Scientific Management.....	22
*Silver, Sterling, Cause and Removal of Fire Stains in.....	6
Silver, Sterling, Manufacture of.....	66
Soldering Britannia Metal.....	430
Sodium Cyanide, New Process for.....	478
Solders for Special Purposes.....	437
Solution, Brass, Up-keep of.....	69
Standardizing Supplies.....	158
"Sweepings," A Definition of.....	71

T

Tinned Sheet Copper, Corrosion of.....	476
Tinning Cast-Iron Vessels, French Method of.....	441
Trade Paper, A Medium of Personal Advancement and Advantage, The.....	342
*Tubes, Seamless, The Manufacture of.....	1

U

*Unique Brass Foundry Company, The.....	159
---	-----

W

War and Brass Manufacturing Industries.....	258
*War Material for Ornaments.....	207

Z

Zinc-Bronze (88 Cu-10Sn-2 Zn), Standard Test Bars, Report on a Series of Comparative Tests of.....	121
Zinc Coats, The Weight of.....	347
*Zinc Committee Fixes Government Prices, A.....	255
Zinc for Casting Letters, Figures, Etc.....	468

AUTHORS

A	Page.
Aluminum Man, The Aluminum Industry in 1916.....	11
B	Page.

SHOP PROBLEMS**A**

Acid-Proof Metal to Withstand Hydrochloric Nitric and Sulphur acids	263
Acid Strip will Remove Nickel from Brass, Nickel, Silver, Etc., and Not from Iron or Steel, Why an	170
Alloy, Aluminum, Method of Filling up Holes in an, used for Binoculars	169
Alloy, Copper, Zinc and Tin, Effect of Tin and Zinc on a	535
Alloy for Aluminum Shells for Grinding Lenses	128
Alloy for Making Rollers for Automobile Tires, Cheap	535
Alloys of Tin and Lead or Tin, Lead and Antimony, Method of Refining	536
Alloys Having High Tensile Strength, for Use on Gun Carriages	216
Alloys, Non-Ferrous, Expansion of, Due to Temperature	82
Alloy Used for Setting Diamonds for Dressing Grinding Wheels	109
Aluminum Castings, Mixture for	553
Aluminum, Facing Material for Producing a Smooth Surface on	535
Aluminum from Zinc, Process of Separating	217
Aluminum, Mixture to Use With, to Make as Hard as Iron	83
Alundum, A Substitute for Turkish Emery for Polishing	311

B

Babbitts, Formulas for Six	396
Batteries, Dry Cell, Use of Old	83
Bearings, Mixture for Electric Motor	535
Belts, Turret Lathe, Method of Preventing, Running off Pulley	310
Brass and Aluminum Turnings, Process of Melting, Into Ingot Form	310
Brass Anodes Corroding in Plating Solutions, The Cause of	32
Brass Mixture, Proper Amount of Lead to Add to a 63-37	535
Brass Nipples, Definition of	217
Brass, Red, Effect of Sulphur, Iron Phosphorus and Aluminum on	82
Brass, To Polish to Eliminate Waves and Buffs from Dragging	396
Brazing Compound for Cold Drawn Steel	310
Brazing Solder, Cause of, Becoming Drossy and Sluggish When Melted in Iron Crucibles	492
Britannia Metals and Coffin Hardware, Proper Method of Mixing	493
Bronze and Babbitt Bushings, Economical Method of Pouring	82
Bronze and White Metal Bushings, To Overcome Trouble in Pouring	536
Bronze, Manganese, Use of Iron, Manganese, Tin and Aluminum in	83
Bronze, Tobin, Tensile Strength of	216
Buff and Brushes on Metal Finishes, Revolutions per Minute for	129
Burnished Silver or Gold Plated Instruments, Cause of Oily Appearance of	446
Burnishing Bronze Powder Used on Wooden Work, Method of	353

C

Casting, Slush Mold	445
Commutator, Cause of, Becoming Hot Under Normal Conditions	262
Copper Alloy, To Make a, Have a More Reddish Color	32
Copper Commutator Bars and Segments, Method of Estimating Weights of	493
Copper, Depositing by Galvanoplastic Method	445
Copper, Method of Melting, in a Schwartz Furnace	395
Copper Ring Castings, Best Practice for Making	395

Page.

Core Mixture for Brass and Gun Metal Castings	263
Crucibles, Method of Repairing Cracked	170
Crucible for Melting Brazing Solder, Correct	492
Crucible Sticking to Base Block in Stationary Furnace, To prevent	33
Crucible with Metal, Proper Method of Filling a, for Melting	445

D

Delta Metal, Some Mixtures for	446
Dip, Gold for Brass Work	32
Drying Steel Sash Chains for Copper Plating	353
Dynamo Suitable for Operating Nickel and Copper Plating Barrels	311

E

Enamel for Use on Brass Plates to be Lacquered	354
Enameling on Zinc Plated Articles, Method of	33
Etching on Pewter, Method of	128
Exhaust System, Proper Arrangement of Fan in an	446

F

Facing Sand in Bronze Castings, The Proper Proportions of Floor Sand and Fine Mansfield Red Sand for use as a	263
Finish, Acid Black on High Brass	262
Finish, Antique Roman Gold, Method of Obtaining a	310
Finish, Black on Zinc	445
Finish, Burned on similar to Grass Green on Bronze Rails	310
Finishes, Green, Acid to be Used with Copper Nitrate to Produce	262
Finish, Hard Gold, to Withstand Buffing	535
Finish, Flemish on Iron	395
Finish, Frosted or Sand Blast on Britannia Metal	128
Finish, Gun Metal on Iron and Steel	168
Finish, Ormolu Gold on White Metal Ornaments	354
Finish, Roman Gold on Sterling Silver Spoons, Method of Obtaining	216
Finish, Tan on Copper	217
Finish, Wax on Brass Fixtures	82
Furnace, Brass Melting, Cause of Consuming So Much Oil	492

G

Galvanized Iron, Cause of Flaky or Crystalline Finish in	33
Glue from an Acid Copper Solution, To Remove	129
Gold, Method of Preparing Solder-Coated	32
Gold Plating Die Castings	129
Grinding Barrel, Satisfactory Speed for, for Polishing Small Steel Stampings	217

I

Iron Dies, Mixture for Filling in for Casting Lead-Antimony Metal	216
---	-----

L

Lead, Durable Black Coating on	445
Lead, on Sheet Copper, Process of, Depositing	216

M

Manganese Bronze, Some Mixtures for	446
Manganese Bronze, Use of Iron, Manganese, Tin and Aluminum in	311
Metal for Use in Sand Molds Having the Highest Shrinkage	82
Metal Scraps, Dross, Etc., Re-Mixing	493
Metals Which Will Expand the Most Under Heat and Contract When Cold	263
Metallized Plaster Paris, Cause of, Becoming Stained in a Liver of Sulphur Solution	217
Mirrors, To Prevent Silver Coming Off of After Copper Plating	353
Molds for Casting Bronze, Silver or Gold, Formula for Composition	263

N

Nickel Anodes, Acid to Use to Prevent Rust Forming on	33
Nickel-Bronze, Method of Obtaining Sound Castings Made From	262
Nickel Cups, Method of Annealing	128
Nickel Plating Coppered Steel, Current Required for	83
Nickel-Silver, To Make Steel-Like Without Raising Nickel Content	492
Nickel Strip, How to Overcome Common Salt in a	311

O

Oil, Method of Testing, Used in Brass Melting Furnace	492
Oxidizing Silver Without Using Platinum	354

P

Paint Used in Casting a Male Die Composed of a Lead and Antimony Alloy to a Female Die of the Same Metal	169
--	-----

	Page.
Phosphor Bronze Castings, Cause of Blow-Holes In	262
Phosphor-Bronze for Use in Steel Mills on Hot Mill Bearings, Hydraulic Screw Nuts and Phosphor Bronze Bearings, Best Mixture of	263
Pickling, Method of Removing Black Deposit from Large Discs after	536
Platinum Scrap Becoming Brittle After Melting, Cause of	170
Polishing Composition, Fast Cutting	536
Polishing Lathes from Heating, To Prevent Bearings on	170
Polishing or Buffing Machines, Advantages of, Driven from Below against Overhead Countershafts	493
Polishing Wheel, Latest Method of Balancing a	170

R

Reflectors, Cause of Discoloration of	353
Rods, Fuse, Method of Straightening After Drawing	311

S

Silver Chloride Thrown Down from a Cyanide Dip by Nitric Acid, Cause of Greenish Tone In	217
Silver, Fine and Sterling, Method of Determining the Difference Between by Analyzing	216
Silver, Nickel, Cleaning Silver Plated	82
Silver, Old Scrap, Method of Melting	217
Silver Plating Horse Bits to Prevent Rusting	446
Silver Plating Nickel Silver	170
Silver Stripping from High Brass, Cause of	170
Silver, To Strip from Stringing Wires Used in Plating Casket Hardware	396
Soda Ash and Washing Soda, The Difference Between	169
Soldering Aluminum	83
Soldering Terns Plate Bottoms on Brass or Copper Table Lamps and Lanterns, Method of	83
Solution, Acid Copper, Proper Voltage and Amperage for a, Plating Non-metals	536
Solution, Arsenic and Cautic Soda for Oxidizing, Method of Replenishing	263
Solution, Brass, Having a Green-Like Finish	492
Solution, Cleaning, for Removing Enamel from Automobile Fenders, Etc.	32
Solution, Copper Cyanide, Thickness of Deposit Obtained In a, in Two Hours	262
Solution, Gold, Method of adding Phosphate of Soda and Cyanide in a	311
Solution, Lead Plating	354
Solutions, Nickel Plating, Correct Current of Dynamo for	366
Solution, Platinum Plating, Formula for a	263
Solution, Silver Immersion	535
Solution, Soda Ash and Cautic Soda, Method of Saving a, After It Had Become Crystallized	160
Solution, Tin, Formula for a, for Depositing on Electrotypes Sheets	33
Steel, Cold Rolled, Soft Enough for Stamping Novelties	129
Steel, Hardened, Method of Brightening, by Means of Tumbling	395
Steel Nuts, Cost of Nickel Plating	33
Steel Shells, To Overcome Cracking of Drawn Steel, To Prevent from Rusting after Soldering with Hard Solder	446
Steel, To Prevent, Rusting after Pickling	396

T

Tinned, Galvanized, etc. Coatings, Weight of Tin Balls, Acid Used in Tumbling	396
Tinned Metal Screen, To Prevent, Becoming Black after Welding	493
Tinning Soldered Black Iron Plate Circular Balls	536
Tinning Steel, Best Method of	311
Tinning Flux	354
Tubes, Brass, Difficulty Experienced in Casting	492
Tumbling Process, Formula for a Dry	446

Z

Zinc from Cracking After Being Cast on Iron Shafts, To Prevent	129
Zinc, Sheet, as Used as an Anode for Electro-Zinc Plating or Galvanizing	493

PATENTS**A**

Acid-Proof Coating for Metals, 1,207,845. E. B. Ronstein, West Pittston, Pa.	35
Alloy, 1,221,769. Hugh S. Cooper, Cleveland, Ohio	219
Alloy, Aluminum and in Articles Made Therefrom, 1,227,174. A. W. Morris, Springfield, Mass.	312
Alloy Bearing, 1,223,001. H. K. Sandell, Chicago, Ill.	219
*Alloy Castings, Process of Making, 1,245,416. Woolsey McA. Johnson, Hartford, Conn.	537
Alloy, Copper-Lead, 1,228,017. E. D. Gleason, Ashbury Park, N. J.	313

B

Alloying Qualities of Manganese with Brass and Bronze, Method of Improving the, 1,214,539. Hans Goldschmidt and Otto Well, Essen-on-the-Ruhr, Germany. Goldschmidt Thermo Company, New York.	131
*Alloying Metals, Process of, 1,235,872. Chauncey C. Baldwin, Perth Amboy, N. J. Alloy, Metal, 1,229,637. H. S. Cooper, Cleveland, Ohio	355
Aluminum, Method of Producing Bands of, 1,225,044. Erwin Richard Lauber and Robert V. Neher, Emmishofen, Switzerland	265
Aluminum Skimmings, Greenings, Broos, Slags or Analogous Aluminous Materials, Process of Treating, 1,228,119. James W. Lawrie, Milwaukee, Wis.	313
Aluminum Soldering Compound, 1,222,158. C. A. Stewart, Carson City, Nevada	219
Aluminum Soldering Flux, 1,225,764. H. V. Burt, Rock Island, Ill.	265
*Apparatus for Colling Metals, 1,229,357. William R. Webster, Bridgeport, Conn.	313
*Apparatus for Measuring the Hardness of Metals, 1,228,503. L. Waldo, Plainfield, N. J.	355
*Apparatus for Refining Metals by Heating, 1,220,111. Alois Helfenstein, Vienna, Austria-Hungary	172

C

*Band-Saw, Metal Cutting, 1,233,430. Herbert C. Williamson, Chicago, Ill.	397
*Casting Fluid Metals, Art of and Apparatus for, 1,214,904. Herman H. Doehler, Brooklyn, N. Y.	131
*Casting Fluid Metals, Method or Art of, 1,224,900. Herman H. Doehler, Brooklyn, N. Y.	265
*Casting Machine, 1,239,360. Henry Alinder, Milwaukee, Wis.	355
*Casting Metals Under an Explosive-Like Pressure Into Molds, Process and Device of, 1,217,662. Heinrich Talla, Heilbronn-on-the-Neckar, Germany	171
*Castings, Method of Making, 1,227,573. W. A. Role, Pittsburgh, Pa.	312
*Castings, Method or Art of Making Commercial, 1,238,789. John Kralund, Brooklyn, N. Y.	447
*Chemical Primer for Zinc, 1,221,046. J. H. Gravel, Philadelphia, Pa.	218
*Cleaner for Tumblers for Metal Castings, Buttons, and Other Articles, 1,211,111. M. A. Dunn, Poughkeepsie, N. Y.	85
Cleaning and Polishing Composition, 1,235,136. L. R. Hanaran, Kansas City, Mo.	398
*Cleaning, Plating, Drying and Burnishing Machine, 1,207,283. W. L. Englauser, Winslow Park, Ohio	84
Coating for Molds and Cores, 1,218,394. J. C. Gernelle-Danloy, Moulins, France.	171
Coating Iron, Steel and Other Metals with Metal, Process of, 1,244,414. Ernst Bernheim, Dusseldorf, Germany	495
*Coating Material, Process of Applying, 1,239,089. Herbert W. Day, Wollaston, Mass.	448
*Annealing Articles, Method of, 1,222,793. A. L. Pollard, Batavia, N. Y.	219
Composition of Matter, 1,239,465. William A. Day, Bellingham, Washington	494
Composition of Matter, 1,244,742. C. L. Jones, Oakland, N. J.	537
Composition of Matter to be Used for Preserving Graphite Crucible	35
*Copper and Similar Bands, Method of Making, 1,236,470. G. E. Neuberth, Newark, N. J.	398
*Copper to an Iron or Steel Body, Method of Welding a Protective Covering of, 1,211,715. J. Kirby, Pittsburgh, Pa.	130
*Copper, Method of Working, 1,216,282. F. S. Carver, Newark, N. J., and W. H. Harman, Lansdowne, Pa.	131
*Copper Tubes, Method and Apparatus for Electrically Making, 1,243,274. E. Emerson, Auburn, R. I.	537
Corrosion, Composition for Protecting Surfaces from, 1,240,395. D. C. Westerfield, Dayton, Ohio and E. J. Rogers, Miamisburg, Ohio	494
*Crucible Holder, 1,226,053. M. W. Goldberg, Milwaukee, Wis.	312
*Crucible, or Melting Pot, 1,241,971. John C. Henderson, Washington, D. C.	495

D

*Die-Casting Machine, 1,215,784. John T. Enley, Philadelphia, Pa.	131
*Die Casting Machine, 1,226,408. L. P. Tenca, Cleveland, Ohio	312
*Die Casting Machine, 1,239,807. Albert W. Morris, Springfield, Mass.	494
*Die Castings, Method of Molten Metal Feed for, 1,219,358. John K. Stewart, Chicago, Ill.	172
*Die Casting Pure Aluminum, Its Alloys and Other Lighter Metals, Apparatus for and Process of, 1,215,243. F. H. Borsch, Artesian, S. D.	130

E

*Electro-Galvanizing Apparatus, 1,208,584. Alexander Laughlin, Jr., Sewickley, Pa.	85
*Electrolytic Deposition, Apparatus for, 1,239,443. Frank L. Antisell, Perth Amboy, N. J.	494
*Electro-Plating and Lacquering Apparatus, 1,210,663. J. J. Mace and J. R. Muir, New York, N. Y.	85
*Electroplating Apparatus, 1,243,008. Louis Potthoff, Flushing, L. I., N. Y.	637
*Electro-Plating Machine, 1,206,122. Edward J. Miller, Jennings, Mo.	84
*Electroplating Pipes, Rods, Etc., Apparatus for, 1,218,802. Nelson H. Raymond, Buffalo, N. Y.	172
*Electroplating-Wire Cloth, Method and Apparatus for, 1,242,695. Ralph O. Hood, Danvers, Mass.	495
*Etching Machine, 1,233,524. Chester A. Telts, Akron, Ohio	356
*Etching-Plates in the Photo Engraving Process, Apparatus for, 1,203,802. J. J. S. Smith, Passaic, N. J.	34

F

Flux for Welding Nickel and Nickel Alloy, 1,224,418. Richard Samesreuther, Dusseldorf, Germany	264
*Furnace, Continuous Heating, 1,205,503. Clarence D. Barnhart, Brooklyn, N. Y., and William H. Jacob, East Orange, N. J.	35
*Furnace for Annealing Metals, 1,241,750. Richard Masters, Dudley, England	495
*Furnace for Galvanizing Wire, 1,208,185. Guy L. Meaker, Joliet, Ill.	84
*Furnace, Metal Heating, 1,241,526. Z. B. Leonard, Cleveland, Ohio	494
*Furnace Shield, 1,245,030. Walter S. Rockwell, New York, N. Y.	538
*Furnace, Zinc, 1,213,922. George Londress and Leyland Rogers, Clarksburg, W. Va.	150

G

*Grinding and Polishing Rolling Mill Rolls, Means of, 1,212,131. A. P. Coates, Middletown, Ohio	85
*Grinding in Tube Mills, 1,225,061. Oscar Schultz, New York	265
*Grinding or Polishing Machine, 1,219,037. T. F. Philippi, East St. Louis, Illinois	172

*Machine, Briquetting, 1,227,831. G. W. Rigby, Pittsburgh, Pa.	313
*Melting Furnaces, Electrode Packing for, 1,234,946. Martin Sperling, Essen on the Ruhr, Germany	398
*Melting Pot Attachment for Blow Torches, 1,201,497. R. J. Peschman, Fort Sheridan, Ill.	34
*Metal Articles, Method of Manipulating, 1,207,622. Richard Beaumont, Thomas, London, England	84
Metal Articles, Preparation for Silvering or Gilding Metal Articles, 1,208,507. Agnes Dalby, London, England	84
*Metal Distillation Furnace, 1,231,239. C. E. Cherry, Trenton, N. J.	356
Metallic Bodies, Composition for Filling Joints In, 1,223,458. J. D. White, Toronto, Canada	219
Metallic Compound, 1,217,710. Herbert B. Cobo, Mount Vernon, N. Y.	171
*Metal-Melting Furnace, 1,229,494. Dwight S. Marfield, Cincinnati, Ohio	355
*Metals From Their Solutions and an Apparatus Therefor, Electrolytic Recovery of Metals, 1,231,907. Uryln C. Tainton and Malcolm Aymard, Johannesburg, Transvaal, South Africa	397
*Metal Sheets, Process for Attaching Coated, 1,231,290. O. M. Otte, Jamestown, N. Y.	356
*Metal Rods, Method of Treating, 1,232,014. V. E. Edwards, Worcester, Mass.	397
Metals, Bearing, Process of, 1,234,547. W. H. Kelly, Los Angeles, Cal.	398
*Metals by Practical Distillation Method of Separating Fusible, 1,208,257. J. Thompson, New York, N. Y.	35
*Metals, Clad, Process of Making, 1,217,581. Byron E. Eldred, New York	171
Metals, Vapor Treatment of, 1,224,339. William A. Darrah and Samuel Trood, Wilkinsburg, Pa.	264
*Metal Working Machines, Attachment for, 1,238,929. Paul Muller, Berlin, Germany	447
*Metal Working Machine, 1,239,053. Roy H. Smith, Cleveland, Ohio	448

	Page.
*Metal Utensils, 1,229,770. Albert L. Marsh, Detroit, Mich.	313
*Mold for Casting Brass Bars, 1,219,180. J. C. Somers, Waterbury, Conn.	172
*Mold, Ingot, 1,245,046. Joseph Scott, Charleston, W. Va.	538
*Molding Machine, 1,207,362. J. M. Battensfield, Cleveland, Ohio.	34
*Molding Machine, 1,245,114. Wilfred Lewis, Haverford, and John T. Ramsden, Philadelphia, Pa.	538
*Molding Sand, Apparatus for Mixing, 1,224,659. William J. Nelson, West Albany, N. Y.	264
Molds, Method or Art of Making, 1,238,183. Leo Frank Nock, Brooklyn, N. Y.	447

N

Nickel-Silver-Alloy Products and Process of Manufacture, 1,227,569. Rasmus Beck, Duren, Germany.	312

SPECIAL OFFER

On Bound Volumes of The Metal Industry

(THE BEST OF ALL BOOKS) WE QUOTE AS FOLLOWS:

YEAR	PRICE
1917	\$1.50
1916	1.50
1915	1.50
1914	1.50
1913	1.50
Total,	\$7.50

SPECIAL PRICE

By ordering all of the above-mentioned volumes we make a special price of \$6.50 for the five years. By sending us an additional 50 cents we will enter your name on our subscription list for one year. Therefore we offer five bound volumes and a year's subscription to THE METAL INDUSTRY for the sum of \$7.00.

For the sum of \$2.00 we will send a bound volume of any year and a year's subscription to THE METAL INDUSTRY.

Each volume is carefully indexed and contains a mine of information for any one connected with the metal or plating trades.

Besides the principal articles there are published each year 175 SHOP PROBLEMS (questions and answers).

Bound volumes are sent, on receipt of price, to any address in the world. Carriage free in the United States and Canada. Other countries, carriage extra.

If so desired, money can be sent in partial payments.
